

The Daily Courant.

Thursday, March 23 17c4.

From the Amsterdam Gazette, dated March 28.

Thoulon, March 9.

THE Duke de la Feuillade is expected here, but we cannot learn the Design of his coming. 15. of the Men of War here are compleatly equipp'd and in a readines to put to Sea, and the rest are fitting out with all Expedition. 'Tis believ'd the Fleet will go to Cadix to cover the Coasts of Spain, and intercept or annoy the Convoys the Enemy shall send to Portugal. The Count de Grignan arriv'd here the 5th of this Month from the Frontiers of Provence, where he has posted 2 Battallions at the Passages of the River Var to prevent the Excursions of the Garrison of Nice. Transport Vessels are getting ready here, for carrying Troops to Italy.

From the Amsterdam Gazette, dated March 25.

Paris, March 14. The Troops of the King's Household are all on the March for Flanders. An Ordinance has been publish'd, promising great Advantages to Seamen that shall enter themselves on board his Majesty's Ships, and threatening those with the Gallies, who having been already employ'd in the Sea Service, shall not come in and Serve again. All the Sea Officers are order'd to repair forthwith to their respective Ships.

From the Rotterdam Gazette, dated March 27.

Paris, March 14. The Court has Advice, that the Grand Prior was to pass the Secchia the 6th of this Month with 18 Battallions, 9 Companies of Grenadiers, and 20 Companies of Foot sent him by the Duke of Vendome. That he intended to pass above Quistello, and to march directly to Concordia and Revere, on a Supposition that the Enemy would not defend those Posts, the rather, because he was assur'd they had but 200 Men in Concordia; and besides it was reported they were sending their Baggage towards the lower Po, with design to retire to Stellata. While the King was last at Marli, the Count of Pontchartrain laid before him a perfect Scheme of the Condition of his Naval Affairs, and took his Majesty's Direction for issuing proper Orders for all the Ships of War that are fit for Service to be got ready to put to Sea the beginning of next Month. The Count de Thoulouse, whose Baggage is already sent to Brest, will speedily be going thither, and will find there 30 Ships of the Line of Battle, 2 of which will be brought from Dunkirk by the Count de la Luzerne. The Marshal de Chateaurenaud will find the like Number at Thoulon. These 2 Squadrons are to set sail much about the same time, and to joyn at Cadix. The Marquess de Pallavicini, a Piemontois, who in the former Campaigns serv'd as a Major General in the Army of the Duke of Vendome, and was seiz'd with the rest of the Piemontois Officers, is entred into the King's Service, who has made him a Major General, and given him a yearly Pension of 6000 Livres: He is to serve in Flanders. The Officers of the Detachment and Recruits that are sending to the Elector of Bavaria, are order'd to repair to the Place of Rendezvous appointed near Strasburg the 25th instant.

From the Leiden Gazette, dated March 25.

Paris, March 16. One of the Count de Chateauneuf's Secretaries is arriv'd at Court in 11 days from Lisbon, and has brought Advice, that the Confederate Fleet having the Archduke Charles on board, came in sight of Lisbon the 5th of this Month; and that thereupon the Count de Chateauneuf retir'd from thence without taking Leave of the King of Portugal.

The Marshals de Villeroy and Villars are to open the Campaign in Flanders the 5th of next Month, and the same day the Succours for the Elector of Bavaria are to pass the Rhine.

From the Leiden Gaz. Mar. 27. & Amst. Cour. Mar. 29.

Paris, March 18. The Duke of Burgundy will not make the Campaign this Year; but 'tis said the Duke of Berri is to command the Army in Germany. The Marshal de Rosen has bought a great part of the Field Equipage of the Marshal de Boufflers, which makes it thought he will serve in the Army this Summer. We have a Report, that there is a Misunderstanding between the Spanish and French General Officers in Spain; that the former shew great Uneasiness at the Authority King Philip V. has given to the Duke of Berwick, the Marquess de Puisegur, and other Officers of the French Auxiliary Troops; and have even desir'd to act separately: But this requires Confirmation. The Envoy of Sweden having receiv'd Letters t'other day from Poland, immediately went to Court and had Audience of his Majesty. Yesterday the Marshal de Tallard had a long Conference with the King, and will set out from hence the 20th to be at Bedford the 26th. The Marquess de Coigni is drawing an Army together on the Saar, and is to have 4 Lieutenant Generals under him.

From the Leiden Gazette, dated March 27.

Cologne, March 26. Lieutenant General Hompes, who arriv'd here lately from Holland, is gone to Coblenz to assist on the part of their High Mightinesses at the Conferences that are to be held there with the Deputies of the Electors of Mentz, Triers and Palatin, the Chapter of Cologne, the Cities of Frankfort and Cologne, the Landgrave of Hesse Cassel, and the Estates of Weteravia and Westerwald, about taking proper Measures for securing Rhinfields, Coblenz, Bonn, and other Places on the lower Rhine. One of our Syndics is gone thither to day on the same Business: And after these Conferences are ended, Monsieur Hompes will proceed to Aschaffenburg to confer with Prince Lewis of Baden.

From the Leiden Gazette, dated March 27.

Bergen op Zoom, March 23. We have certain Advice, that the Marshal de Villeroy arriv'd at Brussels the 16th at Night; That he has since had several Conferences with the Marquess de Bedmar Commandant General of the Spanish Netherlands, and other General Officers concerning the Operations of the ensuing Campaign; That the Garrisons of Lisse, St. Omer, and other Towns of the French Flanders are in full March towards Namur, and are part of them arriv'd there; That those of the Places in Brabant and the Spanish Flanders, are to repair thither by the 1st of April; And that the Enemies pretend to form an Army the beginning of April in the Neighbourhood of Namur. We learn further, that 4 Regiments of the Garrison of Antwerp are detach'd to cover the Workmen that are working on their Lines near Lier; And that they have set 4000 Men at work to make a broad and firm Road from Brussels to Mons.

Thompson pursued him and sail'd much better, so that it is hoped he has taken him, unless the Night coming on gave him opportunity to escape.
